

**Global Strategy for  
Sustainable  
Consumption and  
Production**

# Buliding the global SCP agenda

“The **major cause** of the continued deterioration of the global environment are the unsustainable patterns of consumption and production...”

“SCP is one of the **overarching objectives of, and essential requirements** for, sustainable development.”

“Encourage and promote the development of a **10-year framework of programmes (10YFP)** ..to.. shift towards SCP patterns...” (JPOI, 2002)

**A/CONF.216/5** (paragraph 226 – “The Future We Want”). **10YFP adopted**

Adoption of the 2030 Agenda for SD/SDGs and **inclusion of the 10YFP in SDG8 and SDG12**

HLPF recognizes the **10YFP and its One Planet Network** as a key implementation mechanism for SDG12

Decision of the **UNGA to extend the mandate of the 10YFP to 2030**

**Stockholm+50 and One Planet Network Forum**

**Global Strategy for SCP (2023-2030) validation**

**2030 Agenda & SDGs**

# Architecture of the strategy

Preamble

## VISION

To bring us on track to 2030 through Sustainable Consumption and Production and deliver on global sustainability ambitions, leaving no one behind

### Pillar 1

Further position sustainable consumption and production as an essential requirement and means to achieve global commitments for sustainable development, climate, biodiversity and pollution

### Pillar 2

Enable changes through circularity, transformative multistakeholder and public-private partnerships, tools and solutions across high-impact systems and sectors

### Pillar 3

Empower countries, in particular developing countries, and stakeholders for mainstreaming and implementing sustainable consumption and production patterns, leveraging the UN Development System

### Pillar 4

Fostering a global movement and commitments for action

- A strong, well-coordinated and inclusive governance
- Monitoring progress and impacts

## Operationalization Principles

- Rethinking resource mobilization
- Repositioning the 10YFP Secretariat and Programmes to deliver change at scale

One planet  
handle with care

“The existing enabling programmes of the One Planet Network on sustainable lifestyles and education, **sustainable public procurement and consumer information will be strengthened and scaled-up to further support the implementation of the strategy**”

## SPP in the Global Strategy for SCP

“

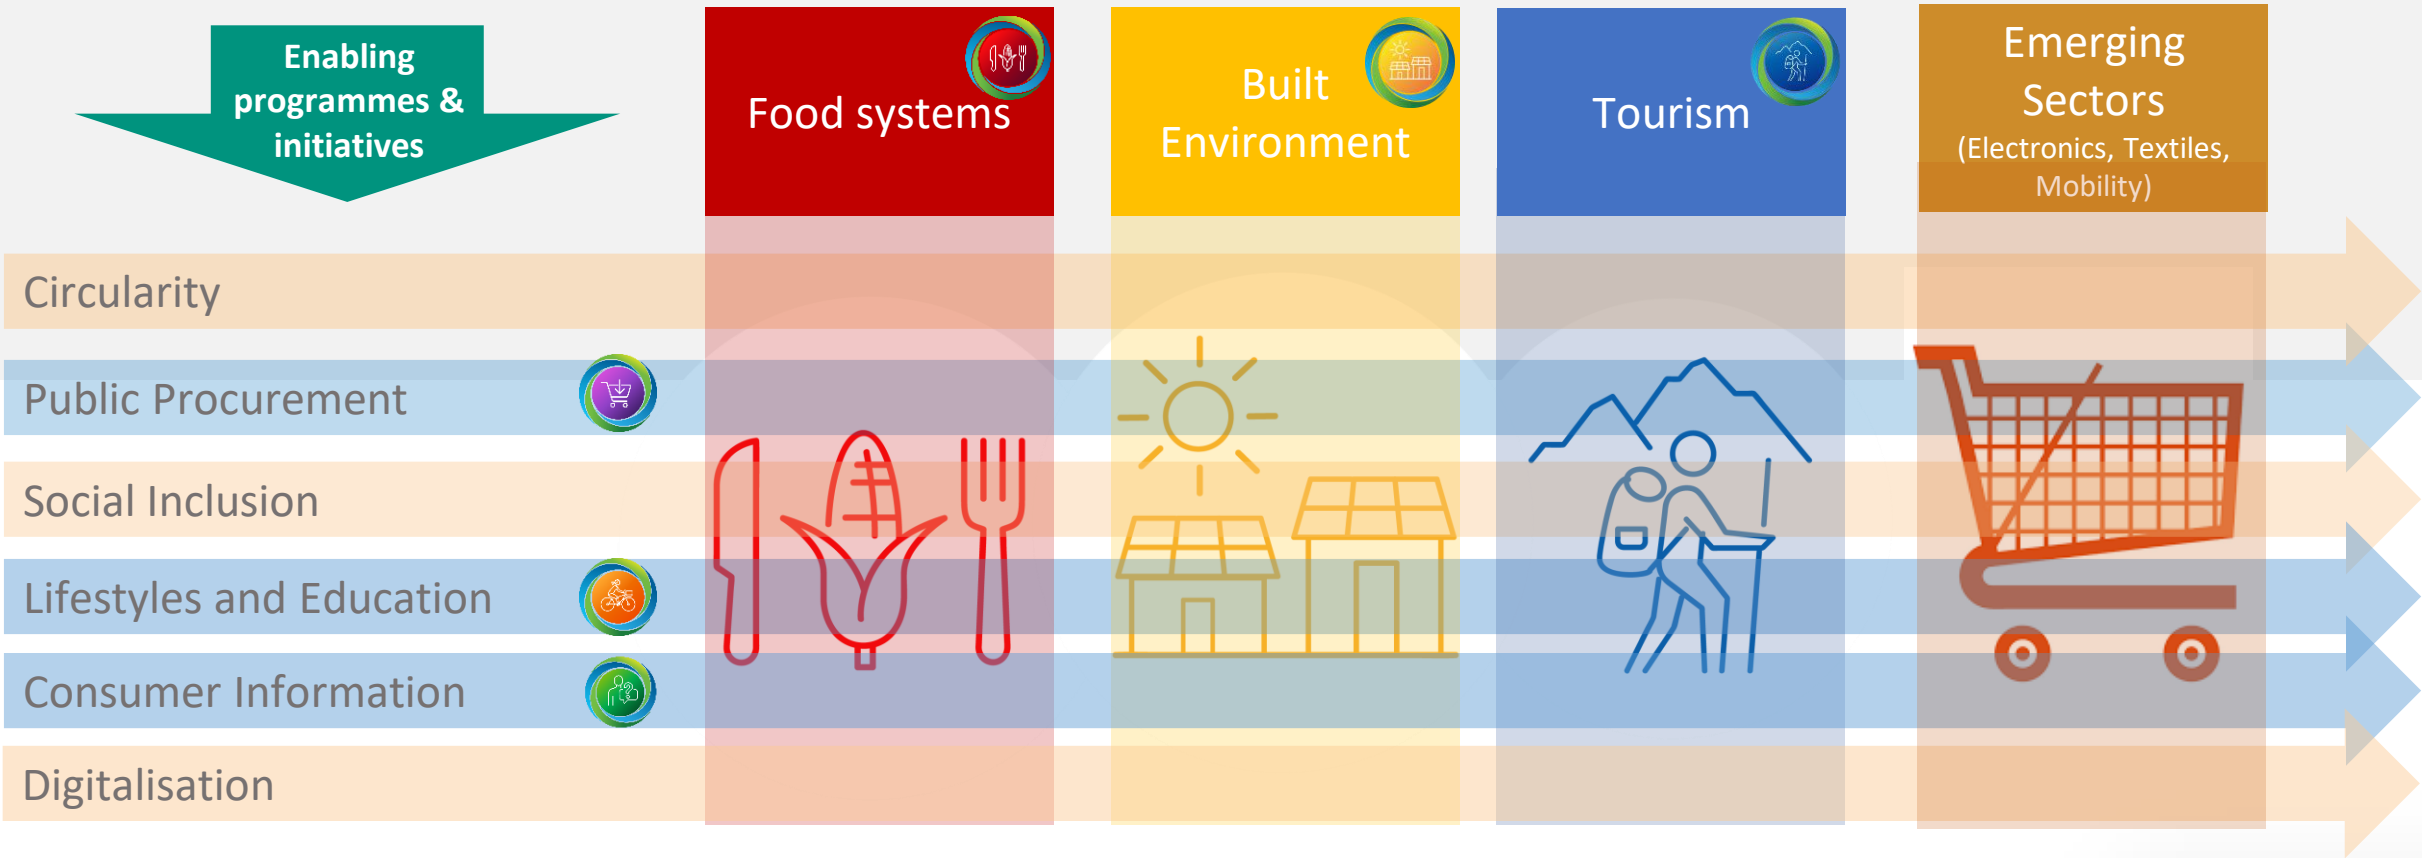

Public procurement can represent up to 30% of GDP at national level, is a **key driver for market transformation and plays a key role in several high-impact sectors**, including the built environment and food systems.

Sustainable public procurement is a **specific target under SDG12 (12.7)** that this strategy will help countries to achieve, **through a strengthened Sustainable Public Procurement programme**, working in close collaboration with global and local partners, influential networks, partnerships and UN entities.

The objective will be to help governments, public authorities and other relevant stakeholders, at all levels, **to collaborate and use their planning and purchasing power through strategic, reliable and practical resources to adopt, implement and monitor the impacts of sustainable public procurement in relevant sectors** (e.g. buildings and construction, food, tourism, information and communications technologies, health), based on national policies and priorities.

”

# Enablers for change and high-impact systems/sectors

## Output 2.a.1

Securing, by 2024, commitments from 50 partners, including governments (national & local) and key market players, to adopt and/or implement SPP principles, including circularity/material efficiency criteria, in the construction sector

# Leveraging sustainable public procurement (SPP) in the construction sector

## Why?

- Up to 30% of GPD in public procurement:
- 50% of public procurement expenditure on buildings and infrastructure

## Who?

- Global Alliance for Buildings and Construction (GABC), building on the legacy of the SBC programme, SPP programme
- Countries, regions and cities, companies with a significant share in the industry and relevant organizations and networks with expertise in public procurement and construction, international financial institutions, UN agencies and city networks

TARGET 12-7

PROMOTE SUSTAINABLE PUBLIC PROCUREMENT PRACTICES

TARGET 9-1

DEVELOP SUSTAINABLE, RESILIENT AND INCLUSIVE INFRASTRUCTURES

TARGET 11-3

INCLUSIVE AND SUSTAINABLE URBANIZATION

**Output 2.a.2**  
Establishing by 2024 a dedicated coalition to strengthen the partnership between governments, public institutions, and other key stakeholders in the food value chain to support the development and implementation of sustainable public food procurement (PFP) policies

# Leveraging sustainable public procurement to advance sustainable food systems

## Why?

- ✓ A strategic entry point for promoting more sustainable food systems, with the potential to profoundly **influence both food consumption and food production patterns** and to deliver multiple social, economic and environmental benefits, notably by contributing to healthy diets.

## Who?

- ✓ Leverage the **ongoing partnership with FAO** and the existing tools and **communities of practice of the SFS and the SPP programmes** to strengthen the engagement and promote collaboration at local, national and international level

## Other flagships Proposed

Leveraging consumer information for behavior change

Leveraging sustainable lifestyles within 1.5 degrees and education in high impact sectors and in major international fora

Harnessing digital innovation for a circular economy

## **Operationalization Principles**

## A strong, well-coordinated and inclusive governance

- A. Reaffirming and **strengthening the role of the 10YFP Board**, as subsidiary body of the UN General Assembly, and the recognition of the role of multi-stakeholder partnerships is essential, with more inclusive, innovative and flexible governance models.
- B. **Strengthening the leadership for the implementation of the 10YFP** and enhancing the implementation of the strategy through existing and new programmes or initiatives, in line with the mandate of the 10YFP and UNEP's Medium-Term Strategy. A **broader engagement and leadership from Member States** will support the implementation of a clear vision with concrete and prioritized objectives.
- C. Broadening programmes and initiatives by reaching out and connecting to new platforms and initiatives. It should be a priority to **further engage the private sector**, with due diligence, in particular industry and the retail sector.
- D. **Mainstreaming meaningful engagement of youth** and their representation in the implementation of this strategy as well as across the areas of work of the One Planet Network is key...

“ Member States and other organizations that will lead and serve in the coordination desks of the programmes and initiatives will engage in this role for a period of 2 years ...”
