

**Circular & Fair
ICT Pact**

The Circular and Fair ICT Pact

IGPN annual meeting

December 16th, 2022

Marieke Weerdesteijn, RWS & CFIT Secretariat

One planet
handle with care

Our world is built on ICT

As consumers of ICT we share responsibility

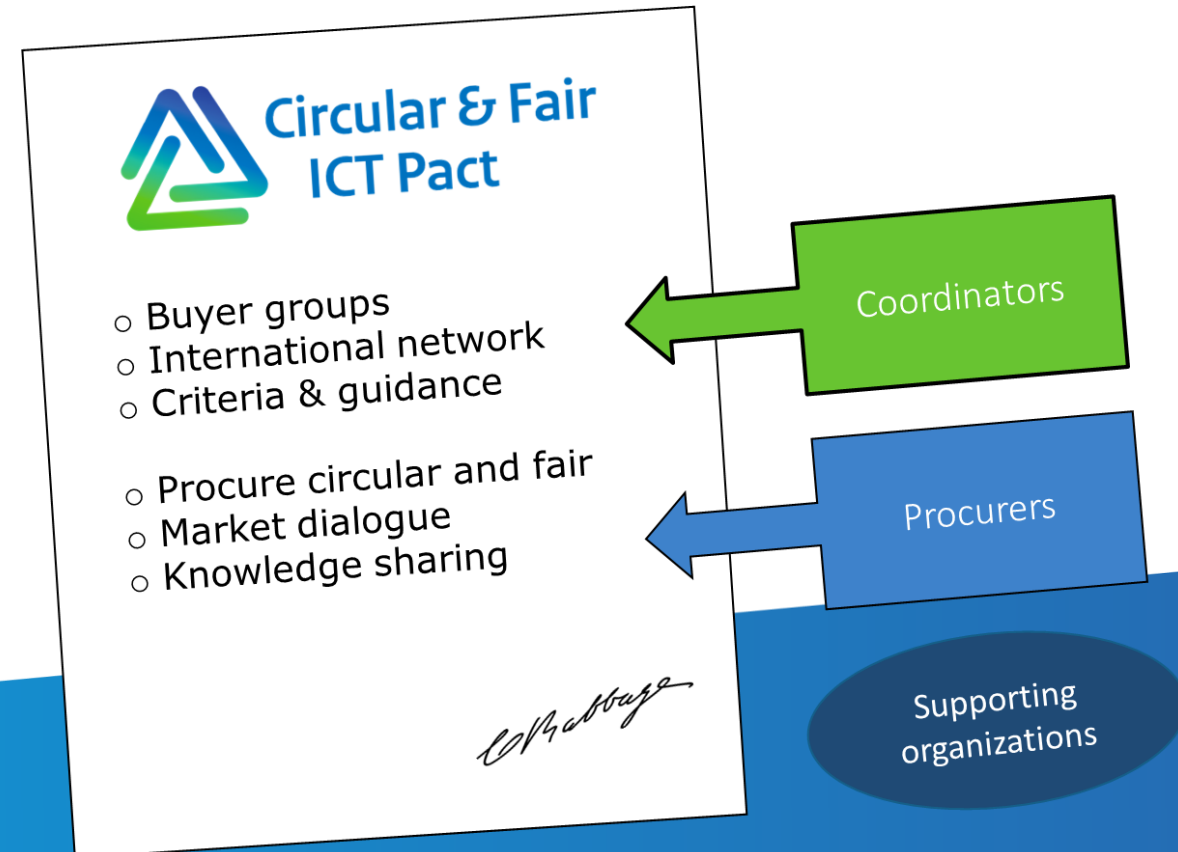

This is why we launched CFIT with the objective:

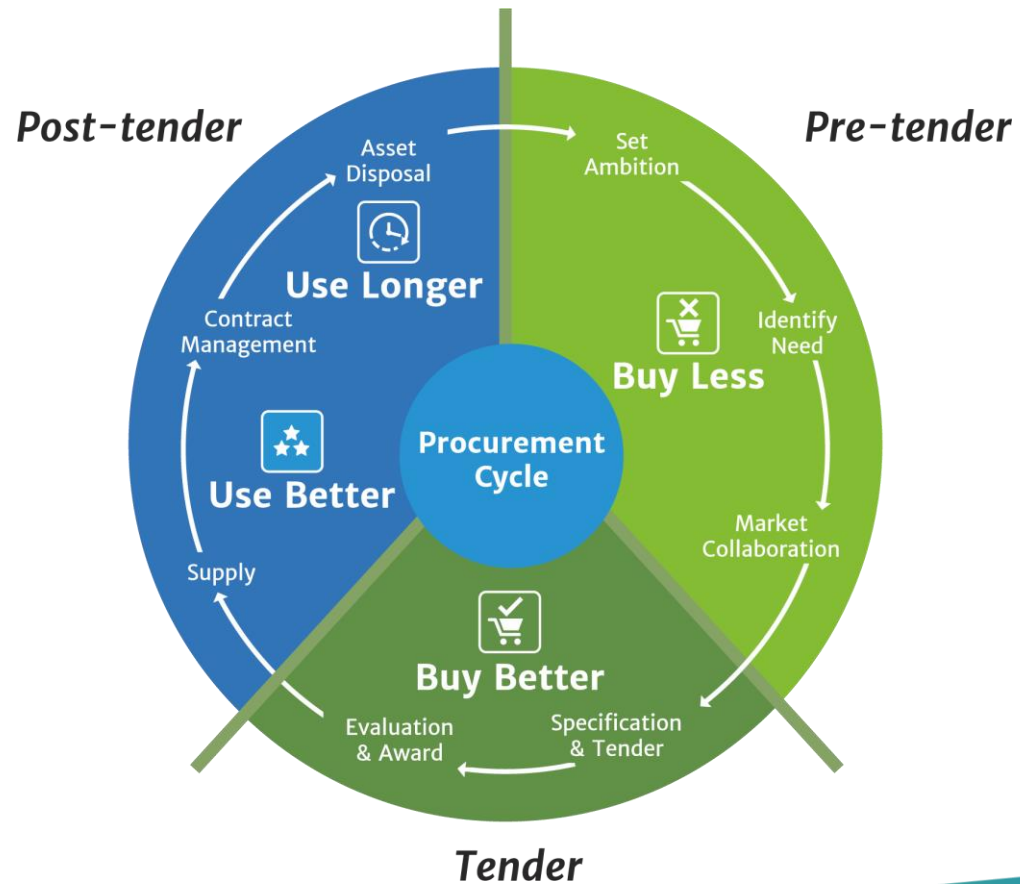

*to accelerate **sustainable production and use of circular and fair ICT products** worldwide through the power of **procurement**.*

Mix of national and international collaboration:

- National networks of procurers – Buyer Groups
- Aim for harmonized demand, criteria
- International knowledge exchange and working groups
- International dialogue

What is Circular and Fair procurement for CFIT?

Circularity

Reduce virgin materials, optimize product lifetime and closing ICT product and material loops

Fair

Ensure a positive impact on stakeholders of the value chain

Energy & climate

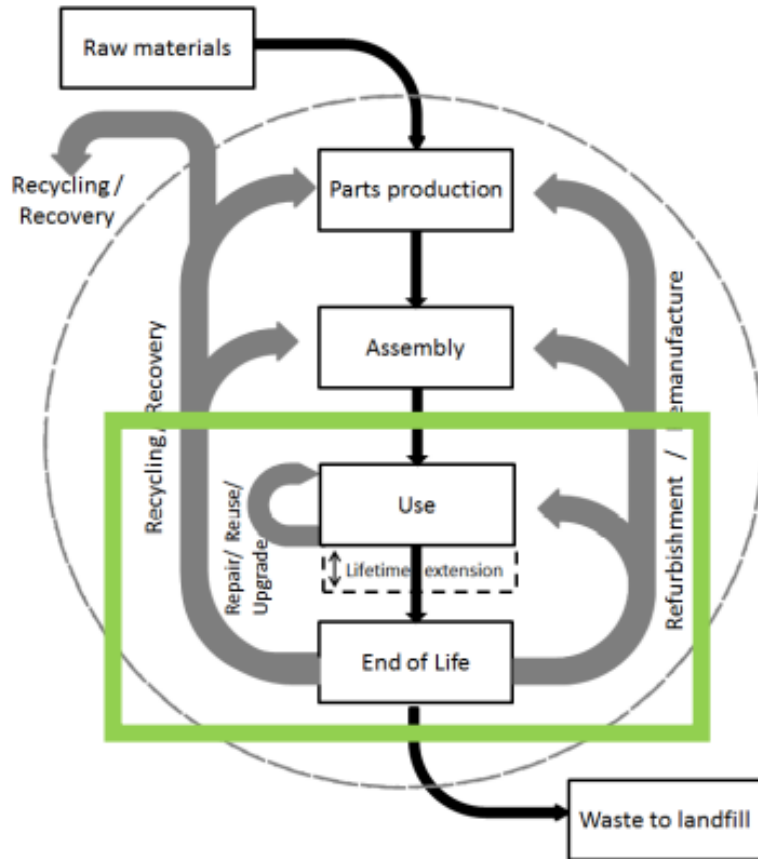

Minimize the climate impact by reducing greenhouse gas emissions and reducing energy consumption over the product lifecycle

Chemicals

Reduce use of chemicals of concern and encourage the design and production using only safe chemicals

Example – Buy better – Consider life cycle

Examples:

- Buy Refurbished / remanufactured
- Life time extension (durability, reparability, design options for upgrade / re-use, secure data removal)
- Energy efficiency (e.g. energy star)
- No hazardous chemicals
- Recyclability

Require an ecolabel
