

2025 IGPN Annual Meeting

# 2025 Activity and Further Challenge of GPN Japan

**GPN Japan**  
International Staff, Kanae Ishizaka  
December 11, 2025

# Contents

## 1. Development of New GPN Green Purchasing Guidelines

- Purchasing Guidelines for Storage Battery
- Purchasing Guidelines for Disaster Preparedness Supplies

## 2. Enhancement of Product Information Dissemination

- Renewal of “Clear Sky Navi”

## 3. Recognition of Outstanding Initiatives

- Green Purchasing Awards 26th

## 4. Future Plans

- 30th Anniversary Events
- Update of Eco-products Database

# 1. Development of New GPN Green Purchasing Guidelines

We have developed 24 guidelines, and this year, we are developing another ones:

25th Storage Battery

26th Disaster Preparedness Supplies

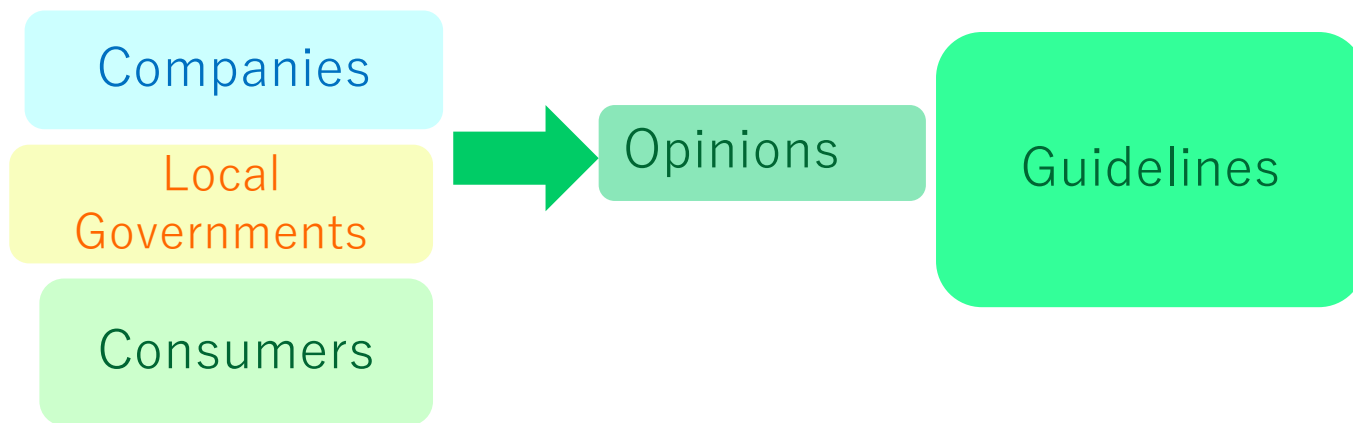

※You can check developed guide lines following URL:

English Version(Condensed Version):<https://www.gpn.jp/english/guideline/>

Japanese Version(Full Version):<https://www.gpn.jp/guideline/>

## ● Our Guidelines' Strong Points

Three types of organization: company, local governments, and consumers discuss the environmental points and develop understandable guidelines.

We can know the environmental points reflected from the organizations.

# 1. Development of New GPN Green Purchasing Guidelines

## Back Ground of New Guideline Development

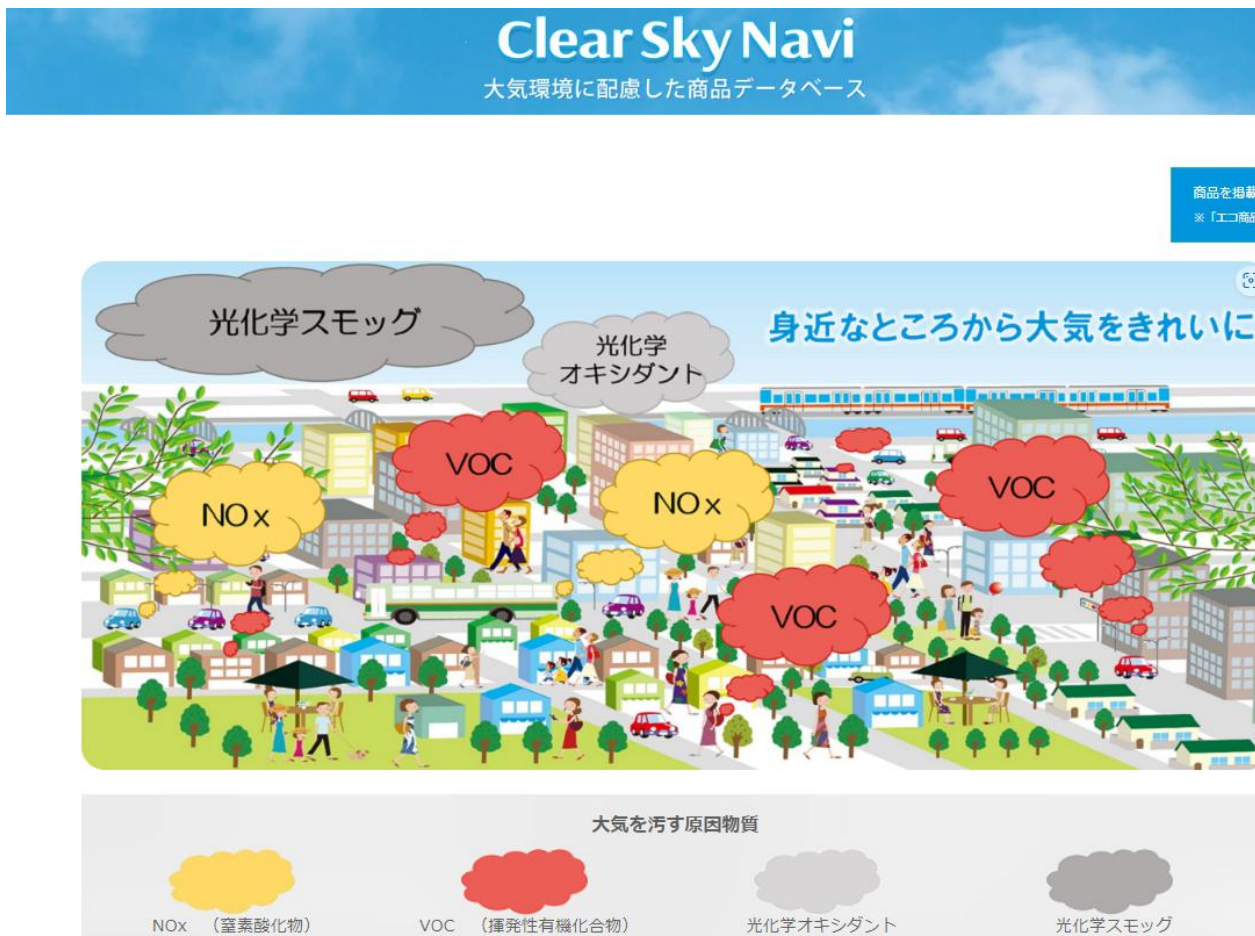

### ●Storage Battery

- In addition to expanding renewable energy power generation, storing this renewable electricity are necessary. Furthermore, from the perspectives of disaster prevention and business continuity planning (BCP), the further proliferation of storage batteries is anticipated.
- Storage Battery has many types and there are multiple batteries.
  - From an environmental perspective, summarizing how to select storage batteries will promote green purchasing of storage batteries and the development of environmentally conscious products.

### ●Disaster Preparedness Supplies

- Disaster Preparedness Supplies involves purchases and replacements not only by individuals but also by companies, local governments, and many other consumers.
- Not only food and water, but also medical supplies, daily necessities, disaster preparedness items, and other diverse products are available, because it is easy to purchase disaster supplies in Japan.
  - The Green Purchasing Guidelines will promote the development of environmentally conscious disaster preparedness supplies and lead to the expansion of the green purchasing market.

## 2. Enhancement of Product Information Dissemination: Renewal of “Clear Sky Navi”

We released  
“Clear Sky Navi” in 2024.

This is a database that allows you to search for products designed with consideration for the atmospheric environment, like our “Eco-products Database”.

GPN and Tokyo Metropolitan Government manage this database together.

The site can be viewed at the URL below. (Japanese Site)  
<https://www.gpn.jp/clearskynavi/>

## 2. Enhancement of Product Information Dissemination: Renewal of “Clear Sky Navi”

### This year's renewal points

- The information on office furniture and printing cartridge are newly released.
- Outdoor products and services can now be registered.
- We currently list approximately 400 products.

We will continue to increase the number of featured companies and listed products.

### 3. Recognition of Outstanding Initiatives

We recognize initiatives that have contributed to the expansion of the green market through “sustainable procurement” and initiatives that contribute to the achievement of SDG goals with the Green Purchasing Awards.

Applications were accepted from May to July, and following the screening process, 13 organizations including companies and local governments were awarded this year.

The award ceremony for the winner will be held on December 17, 2025.

Natura FARM, LTD.	Excellence Award	Aiming for Sustainable Egg Procurement Through Aviary (Vertical Multi-Tier Flat-Bed) Housing Systems Popular in Europe and America

# 4. Future Plans

In 2026, our association will carry out the following activities.

## 1. Holding 30th Anniversary Events

We will celebrate our 30th anniversary next year.

A 30th Anniversary Symposium will be held on **February 10, 2026**.

Participants will have the opportunity to exchange information and contribute to forming new networks.

## 2. Update of Eco-products Database

We will add Storage Batteries.

Disaster preparedness supplies will be upgraded.

→ We will further increase the number of listings and create a database that highlights the latest environmental points.

<https://www.gpn.jp/econet/>

## 4. Future Plans: What we expect to IGPN

- We would appreciate your cooperation in preparing for the 30th Anniversary Symposium, including providing a message from IGPN.
- We intend to continue our efforts to promote IGPN's activities, such as featuring them on our website.

Thank you for your attention.
